

Cold War Study Guide Pdf Pdf

The Book General Knowledge Exam Questions and Answers PDF Download (Grade 7-12 GK Book 2023-24): Quiz Questions Bank & Textbook Chapter 1-15 Exam Prep Book (Class 7-12 General Knowledge Quiz Questions: Practice Tests & Study Material) ... Oxford AQA History: A Level and AS Component 2: The Cold War c1945-1991 2015-11-05 John Aldred Retaining well-loved features from the previous editions, The Cold War has been approved by AQA and matched to the new 2015 specification. This textbook explores in depth the evolving course of international relations during an era of tension between communist and capitalist powers. It focuses on key ideas such as communism and anti-communism, aggression and détente, and the power of nuclear technology, and covers events and developments with precision. Students can further develop vital skills such as historical interpretations and source analyses via specially selected sources and extracts.

Practice questions and study tips provide additional support to help familiarize students with the new exam style questions, and help them achieve their best in the exam.

The Global Cold War 2007-03-01 Odd Arne Westad The Cold War shaped the world we live in today - its politics, economics, and military affairs. This book shows how the globalization of the Cold War during the last century created the foundations for most of the key conflicts we see today, including the War on Terror. It focuses on how the Third World policies of the two twentieth-century superpowers - the United States and the Soviet Union - gave rise to resentments and resistance that in the end helped topple one superpower and still seriously challenge the other. Ranging from China to Indonesia, Iran, Ethiopia, Angola, Cuba, and Nicaragua, it provides a truly global perspective on the Cold War. And by exploring both the

development of interventionist ideologies and the revolutionary movements that confronted interventions, the book links the past with the present in ways that no other major work on the Cold War era has succeeded in doing.

The Culture of the Cold War 1996-05-19 Stephen J. Whitfield In a new epilogue to this second edition, he extends his analysis from the McCarthyism of the 1950s, including its effects on the American and European intelligentsia, to the civil rights movement of the 1960s and beyond.

HTA Modern History Study Guide 2007 Paul Kiem Table of contents includes: World War I 1914-1919, Germany 1918-1939, Russia/Soviet Union 1917-1941, China 1927-1949, USA 1919-1941, The Cold War 1945-1991, Arab Israel conflict 1948-1996, Conflict in Indochina 1954-1979, Conflict in the Pacific 1937-1951, Conflict in Europe

1935-1945, Personalities in the 20th Century, Exam Questions.

Mao's China and the Cold War

2010-03-15 Jian Chen This comprehensive study of China's Cold War experience reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union. The success of China's Communist revolution in 1949 set the stage, Chen says. The Korean War, the Taiwan Strait crises, and the Vietnam War--all of which involved China as a central actor--represented the only major "hot" conflicts during the Cold War period, making East Asia the main battlefield of the Cold War, while creating conditions to prevent the two superpowers from engaging in a direct military showdown. Beijing's split with Moscow and rapprochement with Washington fundamentally transformed the international balance of power, argues Chen, eventually leading to the end of the Cold War with the collapse of the Soviet Empire and the decline of international communism. Based on sources that include recently declassified Chinese documents, the

book offers pathbreaking insights into the course and outcome of the Cold War.

International Politics 2009-07-27

Alasdair Blair This accessible, user-friendly and bang-up-to-date introduction to International Politics blends key facts and terms with strong analytical commentary, examining the debates and issues of greatest relevance to the study of the subject. Focusing on the period since 1900, the book provides detailed coverage of key events from the origins of the First World War to the post-Cold War international order. Written in a clear and jargon-free style, particular features include: *The shift from Great Powers to Superpowers in the first half of the twentieth century *The Cold War and post-Cold War order *A fresh approach to understanding the relevancy of theory *State and non-state actors *The challenge of globalization *Order, justice and security in International Politics This clear and authoritative account of International Politics benefits from an exhaustive list of boxes, tables and figures, as well as extensive cross-referencing throughout.

This book is an essential guide to understanding the challenges that face world peace and security in the twenty-first century.

Hong Kong and the Cold War

2004-08-05 Chi-kwan Mark After 1949, the British Empire in Hong Kong was more vulnerable than the lack of Chinese demand for return and the success of Hong Kong's economic transformations might have suggested. Its vulnerability stemmed as much from Britain's imperial decline and America's Cold War requirements as from a Chinese threat. It culminated in the little known '1957 Question', a year when the British position in Hong Kong appeared more uncertain than any time since 1949. This is the first scholarly study that places Hong Kong at the heart of the Anglo-American relationship in the wider context of the Cold War in Asia. Unlike existing works, which tend to treat British and US policies in isolation, this book explores their dynamic interactions - how the two allies perceived, responded to, and attempted to influence each other's policies and actions. It also provides a major reinterpretation of Hong Kong's involvement in the

containment of China. Dr Mark arguesthat, concerned about possible Chinese retaliation, the British insisted and the Americans accepted that Hong Kong's role should be as discreet and non-confrontational in nature as possible. Above all, top decision-makers in Washington evaluated Hong Kong's significance not in its own right, but inthe context of the Anglo-American relationship: Hong Kong was seen primarily as a bargaining chip to obtain British support for US policy elsewhere in Asia.By using a variety of British and US archival material as well as Chinese sources, Dr Mark examines how the British and US government discussed, debated, and disagreed over Hong Kong's role in the Cold War, and reveals the dynamics of the Anglo-American alliance and the dilemmas of small allies in a global conflict.

The Oxford Handbook of the Cold War 2013-01-31 Richard H. Immerman The Oxford Handbook of the Cold War offers a broad reassessment of the period war based on new conceptual frameworks developed in the field of international history. Nearing the 25th anniversary of its end, the cold war now emerges as a distinct

period in twentieth-century history, yet one which should be evaluated within the broader context of global political, economic, social, and cultural developments. The editors have brought together leading scholars in cold war history to offer a new assessment of the state of the field and identify fundamental questions for future research. The individual chapters in this volume evaluate both the extent and the limits of the cold war's reach in world history. They call into question orthodox ways of ordering the chronology of the cold war and also present new insights into the global dimension of the conflict. Even though each essay offers a unique perspective, together they show the interconnectedness between cold war and national and transnational developments, including long-standing conflicts that preceded the cold war and persisted after its end, or global transformations in areas such as human rights or economic and cultural globalization. Because of its broad mandate, the volume is structured not along conventional chronological lines, but thematically, offering essays on conceptual frameworks, regional

perspectives, cold war instruments and cold war challenges. The result is a rich and diverse accounting of the ways in which the cold war should be positioned within the broader context of world history.

SALT II agreement 1979 United States. Department of State. Bureau of Public Affairs

The Legacy of the Cold War 2013-12-16 Vojtech Mastny The unexpected end of the protracted conflict has been a sobering experience for scholars. No theory had anticipated how the Cold War would be terminated, and none should also be relied upon to explicate its legacy. But instead of relying on preconceived formulas to project past developments, taking a historical perspective to explain their causes and consequences allows one to better understand trends and their long-term significance. The present book takes such perspective, focusing on the evolution of security, its substance as well as its perception, the concurrent development of alliances and other cooperative structures for security, and their effectiveness in managing conflicts. In The Legacy of the Cold

War Wojtech Mastny and Zhu Liqun bring together scholars to examine the worldwide effects of the Cold War on international security. Focusing on regions where the Cold War made the most enduring impact—the Euro-Atlantic area and East Asia—historians, political scientists, and international relations scholars explore alliances and other security measures during the Cold War and how they carry over into the twenty-first century.

The US Policy Making Process for Post Cold War China 2017-07-13 Wenzhao Tao Combining a study of American Think Tanks and a study of American diplomatic policy on China following the Cold War, this book explores in detail the policy-making process, procedures and mechanisms, as well as the roles of various interest groups in the policy-making process for China-related policies. Further, it dissects the policy-making process with regard to selected sensitive policies, such as the US diplomatic policy on Taiwan, China; US trade policy on China; US human rights policy on China; and US environmental and energy policy on China; and analyzes the function and influence of the American Think

Tanks in the policy debates. Characterized by its high theoretical value, wealth of historical materials and painstaking analysis, the book is not only of important academic value but also offers a valuable reference guide to support the practical work of related departments in the Chinese government.

Introduction to International Relations 1999 Robert H. Jackson The end of the Cold War has provoked an explosive increase in theories, concepts, and debates in the discipline of International Relations. There is growing confusion as to what are the important issues and what are the best ways of approaching them. This book is unique in providing a systematic introduction to principal theories in IR, including 'post-positivist' theories which have gained prominence in recent years. The strengths and weaknesses of each theory are critically examined and the main points of contention between the theories are thoroughly discussed. The text contains a large number of empirical illustrations which demonstrate the link between theory

and actual events. The book provides a rapid entry into the discipline of IR. Each chapter begins with a brief summary, and ends with a list of key points, study questions, and a guide to further reading. Jackson and Sorensen offer the ideal introduction to this important subject, enabling students to master IR as a discipline rather than merely study current events.

Cambridge IGCSE and O Level History Study and Revision Guide 2019-10-07 Benjamin Harrison Enter the exam with the confidence to achieve your best grade using a concise summary of the syllabus content and step-by-step guidance in exam technique. - Target your revision on the issues, Key Questions and Focus Points - Build your history vocabulary with the Key words feature - Reinforce knowledge and skills learned with exam-style Practice questions and Model answers - Avoid common errors and aid preparation with Examiner's tips highlighting good practice. This Study and Revision Guide is designed for the examination from 2020. This title has not been through the Cambridge Assessment International Education endorsement process.

Competitive Authoritarianism
2010-08-16 Steven Levitsky Based on a detailed study of 35 cases in Africa, Asia, Latin America, and post-communist Eurasia, this book explores the fate of competitive authoritarian regimes between 1990 and 2008. It finds that where social, economic, and technocratic ties to the West were extensive, as in Eastern Europe and the Americas, the external cost of abuse led incumbents to cede power rather than crack down, which led to democratization. Where ties to the West were limited, external democratizing pressure was weaker and countries rarely democratized. In these cases, regime outcomes hinged on the character of state and ruling party organizations. Where incumbents possessed developed and cohesive coercive party structures, they could thwart opposition challenges, and competitive authoritarian regimes survived; where incumbents lacked such organizational tools, regimes were unstable but rarely democratized.

Killing Hope 2003-07-31 William Blum
Is the United States a force for democracy? From China in the 1940s to Guatemala today, William Blum

presents a comprehensive study of American covert and overt interference, by one means or another, in the internal affairs of other countries. Each chapter of the book covers a year in which the author takes one particular country case and tells the story - and each case throws light on particular US tactics of intervention.

Cold War Pistols of Czechoslovakia
2009 James D. Brown This is the first English language work to examine the subject in detail and the first in any language to identify, describe, and quantify variations and production figures for the models covered. The book focuses on the Czechoslovak Communist period (1948-1989), but reaches back into the 1930s in order to trace the history of the 6.35 mm Duo pocket pistol, which remained in production under the name "Z" until 1974 with a total of thirteen distinct marking variations, and the 6.35 mm model 1945, which had its beginnings as the model 1936. The 7.65 mm model 50 police pistol and its successor, the model 70, are covered in depth, documenting both marking variations and a significant number of design changes introduced

during their thirty-three-year production life. The 7.62 mm model 52 Army pistol is given extensive treatment based on data drawn from over 2,000 specimens; in addition to descriptions of both standard and rare variants, significant discussion of the pistol's mechanical characteristics and potential safety problems is presented. Also covered are the more modern commercial CZ 75 and CZ 85, the military model 82, and the commercial CZ 83, as are small calibre target pistols and signal pistols.

The Palgrave Handbook of Conflict and History Education in the Post-Cold War Era 2019-06-28 Luigi Cajani
This Handbook provides a systematic and analytical approach to the various dimensions of international, ethnic and domestic conflict over the uses of national history in education since the end of the Cold War. With an upsurge in political, social and cultural upheaval, particularly since the fall of state socialism in Europe, the importance of history textbooks and curricula as tools for influencing the outlooks of entire generations is thrown into sharp relief. Using case

studies from 58 countries, this book explores how history education has had the potential to shape political allegiances and collective identities. The contributors highlight the key issues over which conflict has emerged – including the legacies of socialism and communism, war, dictatorships and genocide – issues which frequently point to tensions between adhering to and challenging the idea of a cohesive national identity and historical narrative. Global in scope, the Handbook will appeal to a diverse academic audience, including historians, political scientists, educationists, psychologists, sociologists and scholars working in the field of cultural and media studies.

The Vietnam War Reexamined
2017-12-14 Michael G. Kort
Going beyond the dominant orthodox narrative to incorporate insight from revisionist scholarship on the Vietnam War, Michael G. Kort presents the case that the United States should have been able to win the war, and at a much lower cost than it suffered in defeat. Presenting a study that is both historiographic and a narrative

history, Kort analyzes important factors such as the strong nationalist credentials and leadership qualities of South Vietnam's Ngo Dinh Diem; the flawed military strategy of 'graduated response' developed by Robert McNamara; and the real reasons South Vietnam collapsed in the face of a massive North Vietnamese invasion in 1975. Kort shows how the US commitment to defend South Vietnam was not a strategic error but a policy consistent with US security interests during the Cold War, and that there were potentially viable strategic approaches to the war that might have saved South Vietnam.

Access to History for the IB Diploma: Causes and effects of 20th century wars
Study and Revision Guide 2019-02-18 Nicholas Verrill
Exam board: International Baccalaureate
Level: IB Diploma
Subject: History
First teaching: September 2015
First exams: Summer 2017
Reinforce knowledge and develop exam skills with revision of key historical content, exam-focussed activities and guidance from experts as part of the Access to History Series. · Take control of revision with helpful revision tools and

techniques, and content broken into easy-to-revise chunks. · Revise key historical content and practise exam technique in context with related exam-focussed activities. · Build exam skills with Exam Focus at the end of each chapter, containing exam questions with sample answers and examiner commentary, to show you what is required in the exam.

Everything You Need to Ace American History in One Big Fat Notebook
2016-08-09 Workman Publishing
It's the revolutionary American history study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace American History . . . covers Native Americans to the war in Iraq. There are units on Colonial America; the Revolutionary War and the founding of a new nation; Jefferson and the expansion west; the Civil War and Reconstruction; and all of the notable events of the 20th century—World Wars, the Depression, the Civil Rights movement, and much more. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit—borrowing the notes from the smartest kid in class. There are five books in all, and each is the only book you need

for each main subject taught in middle school: Math, Science, American History, English Language Arts, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in neon colors. Definitions explained. Doodles that illuminate tricky concepts in marker. Mnemonics for memorable shortcuts. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

A Study Guide for Allen Ginsberg's "Howl" 2015-03-13 Gale, Cengage Learning A Study Guide for Allen Ginsberg's "Howl," excerpted from Gale's acclaimed Poetry for Students. for all of your research needs.

Declassified Patents of the Cold War and SDI 1997 Gerry Vassilatos

HTA Modern History Study Guide 2019-06 Paul Kiem

The Russian Way of War 2019-07-17 Department of Department of the Army PRINTED IN COLOR - The Russian Way of War - Force Structure, Tactics, and Modernization of the Russian Ground Forces Published by the U.S. Army Training and Doctrine Command G2's Foreign Military Studies Office in 2016, this book picks up where the FM 100-2 series left off and discusses Russian military structure, capabilities, and future development. Includes July 2019 BONUS materials on the following:
*1K17 Szhatie (1K17 Сжатие) Russian "Stiletto" Laser Tank *Combat Laser System (Peresvet) Russian Laser Cannon *T-14 Armata Main Battle Tank *T-15 Heavy Infantry Combat Vehicle *Kurganets-25 Light Tracked Armored Vehicle *2S35 Koalitsiya-SV 152-mm Self-Propelled Howitzer *VPK-7829 Bumerang Modular Infantry Wheeled Fighting Vehicle Why buy a book you can download for free? We print the paperback book so you don't have to.

First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>

The Cold War 2019-10-15 Odd Arne Westad The definitive history of the Cold War and its ongoing impact around the world The Cold War began

on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where every community had to choose sides. Those choices continue to define economies and regimes across the world. Stunning in breadth and revelatory in perspective, *The Cold War*, by prize-winning scholar Odd Arne Westad, expands our understanding of the conflict both geographically and chronologically, and offers a new understanding of how today's world was created. "An epic account." --Wall Street Journal "An account of the Cold War that is truly global in its scope... a wise and observant history." --New Republic "An ambitious study, perspicacious and panoramic in scope." --Financial Times, Best Books of 2017

An Introduction to International Relations 2011-10-17 Richard Devetak Invaluable to students and those approaching the subject for the first time, *An Introduction to International Relations*, Second Edition provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation.

Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations.

The United States of War 2021-09-07 David Vine 2020 L.A. Times Book Prize Finalist, History A provocative examination of how the U.S. military has shaped our entire world, from today's costly, endless wars to the prominence of violence in everyday American life. The United States has been fighting wars constantly since invading Afghanistan in 2001. This nonstop warfare is far less exceptional than it might seem: the United States has been at war or has invaded other countries almost every year since independence. In *The United States of War*, David Vine traces this pattern of bloody conflict from Columbus's 1494 arrival in

Guantanamo Bay through the 250-year expansion of a global U.S. empire. Drawing on historical and firsthand anthropological research in fourteen countries and territories, *The United States of War* demonstrates how U.S. leaders across generations have locked the United States in a self-perpetuating system of permanent war by constructing the world's largest-ever collection of foreign military bases—a global matrix that has made offensive interventionist wars more likely. Beyond exposing the profit-making desires, political interests, racism, and toxic masculinity underlying the country's relationship to war and empire, *The United States of War* shows how the long history of U.S. military expansion shapes our daily lives, from today's multi-trillion-dollar wars to the pervasiveness of violence and militarism in everyday U.S. life. The book concludes by confronting the catastrophic toll of American wars—which have left millions dead, wounded, and displaced—while offering proposals for how we can end the fighting.

International Relations: The Key Concepts 2014-02-03 Steven C. Roach

'To attempt such a difficult task requires ambition, confidence and skill. All three qualities are evident in this impressive reference book. It deserves a prominent place in all International Relations libraries'. Dr Scott Burchill, In Australian Journal of Political Science, 43:4, 747 – 766. Now in its third edition, International Relations: The Key Concepts, remains an important resource for anyone interested in international politics. Comprehensive and relevant, it has been fully revised to reflect the most important themes and issues in international relations in the post-9/11 era. Featuring new entries on: • The Arab Spring • Responsibility to Protect • Governmentality • Postcolonialism • Neoliberalism • Global Financial Crisis With suggestions for further reading and a useful guide to websites, International Relations: The Key Concepts is an ideal aid for students and newcomers to the field of International Relations.

This book retains Aaron Wilkes' unique and engaging style, shown in recent research to inspire and motivate young historians - Technology, War and Independence Kerboodle: Lessons, Resources, Assessment offers a digital subscription packed full of customisable interactives, worksheets, animations and automarked assessments.

Cold War in Southern Africa 2009-09-10 Sue Onslow This edited volume examines the complexities of the Cold War in Southern Africa and uses a range of archives to develop a more detailed understanding of the impact of the Cold War environment upon the processes of political change. In the aftermath of European decolonization, the struggle between white minority governments and black liberation movements encouraged both sides to appeal for external support from the two superpower blocs. Cold War in Southern Africa highlights the importance of the global ideological environment on the perceptions and consequent behaviour of the white minority regimes, the Black Nationalist movements, and the newly independent African nationalist governments. Together,

they underline the variety of archival sources on the history of Southern Africa in the Cold War and its growing importance in Cold War Studies. This volume brings together a series of essays by leading scholars based on a wide range of sources in the United States, Russia, Cuba, Britain, Zambia and South Africa. By focussing on a range of independent actors, these essays highlight the complexity of the conflict in Southern Africa: a battle of power blocs, of systems and ideas, which intersected with notions and practices of race and class This book will appeal to students of cold war studies, US foreign policy, African politics and International History. Sue Onslow has taught at the London School of Economics since 1994. She is currently a Cold War Studies Fellow in the Cold War Studies Centre/IDEAS

Understanding Conflict Resolution

International Law and the Cold War
2020 Matthew Craven This is the first book to examine in detail the relationship between the Cold War and International Law.

Enemies of the State 2020-02-29 D. J. Mulloy The rise of the alt-right alongside Donald Trump's candidacy may be seem unprecedented events in the history of the United States, but D. J. Mulloy shows us that the radical right has been a long and active part of American politics during the twentieth century. From the German-American Bund to the modern militia movement, D. J. Mulloy provides a guide for anyone interested in examining the roots of the radical right in the U.S.—in all its many varied forms—going back to the days of the Great Depression, the New Deal and the extraordinary political achievements of Franklin D. Roosevelt. Enemies of the State offers an informative and highly readable introduction to some of the key developments and events of recent American history including: the fear of the Communist subversion of American society in the aftermath of the Second World War; the rise of the civil rights movement and the “white backlash” this elicited; the apparent decline of liberalism and the ascendancy of conservatism during the economic malaise of the 1970s; Ronald Reagan's triumphant presidential victory in 1980; and the Great Recession of 2007-08 and

subsequent election of President Obama.

The Unwomanly Face of War 2017-07-25 Svetlana Alexievich The long-awaited translation of the classic oral history of Soviet women's experiences in the Second World War - from the winner of the Nobel Prize in Literature Bringing together dozens of voices in her distinctive style, The Unwomanly Face of War is Svetlana Alexievich's collection of stories from Soviet women who lived through the Second World War: on the front lines, on the home front, and in occupied territories. As Alexievich gives voice to women who are absent from official narratives - captains, sergeants, nurses, snipers, pilots - she shows us a new version of the war we're so familiar with, creating an extraordinary alternative history from their private stories. Published in 1985 in Russia and now available in English for the first time, The Unwomanly Face of War was Alexievich's first book and a huge bestseller in the Soviet Union, establishing her as a brilliantly revolutionary writer.

The Evolution of International

Security Studies 2009-08-27 Barry Buzan International Security Studies (ISS) has changed and diversified in many ways since 1945. This book provides the first intellectual history of the development of the subject in that period. It explains how ISS evolved from an initial concern with the strategic consequences of superpower rivalry and nuclear weapons, to its current diversity in which environmental, economic, human and other securities sit alongside military security, and in which approaches ranging from traditional Realist analysis to Feminism and Post-colonialism are in play. It sets out the driving forces that shaped debates in ISS, shows what makes ISS a single conversation across its diversity, and gives an authoritative account of debates on all the main topics within ISS. This is an unparalleled survey of the literature and institutions of ISS that will be an invaluable guide for all students and scholars of ISS, whether traditionalist, 'new agenda' or critical.

Tommy's War 2008 Thomas Cairns Livingstone The extraordinary diaries of Thomas Cairns Livingstone represent twenty years of gorgeously

idiosyncratic daily records of a middle-class Glasgow household, over a period spanning shortly before the Great War to the early 1930s.

The Non-Aligned Movement: Genesis, Organization and Politics (1927-1992) 2018-11-26 Jürgen Dinkel In The Non-Aligned Movement: Genesis, Organization and Politics (1927-1992) Jürgen Dinkel examines the history of the NAM since the interwar period as a special reaction of the "Global South" to changing global orders.

Over the Hump 1964 William H. Tunner "William Henry Tunner (July 14, 1906 - April 6, 1983) was a general officer in the United States Air Force and its predecessor, the United States Army Air Forces. Tunner was known for his expertise in the command of large-scale military airlift operations, first in Air Transport Command (ATC) during World War II, commanding The Hump operation, and later in Military Air Transport Service (MATS) during the Berlin Airlift in 1949-1951. He eventually rose to the rank of Lieutenant general and commanded MATS itself."--Wikipedia, 10 November 2020,

https://en.wikipedia.org/wiki/William_H._Tunner
